

Prep 5 Class Prayer

Dear Father,

Thank you for everything you have given us;

Thank you for our family and friends who we had a good summer with;

and returning all our school friends safely as we gather together to start a new school year.

Help the children that don't have access to as good an education as us.

We thank you for access to doctors and the whole medical profession who help keep us healthy.

We pray that scientists and doctors are successful in finding cures for illnesses like cancer.

We ask you to help the refugees who are escaping from war to find safe and warm homes.

Help us this year to develop our gifts and talents and humbly appreciate this incredible world.

We ask you to answer our prayers great and small and show us your love,

Amen.
