

Prep Four's Five Finger Prayer

Dear Father,

Family and friends give you love that never ends, we thank them for their help when we are stuck, which has allowed us to grow up in your faith.

We pray that you continue to provide our teachers and leaders with the wisdom they need to help and teach us, so we may progress in our lives. They are like signs which point us in the right direction.

We ask you to guide and support the authorities in our world, such as Mrs. Hutchinson who helps us every day. We ask that they run our world with love and kindness just as you have shown us.

Lord, please watch over all the weak and sick in the world, comfort them in their time of need and heal them with your love.

During this year of Mercy, let us show kindness and compassion towards each other just as Jesus did to strengthen the friendships which we have made. Please support us as we try our best in all that we do.

Amen
